

To the
Food and Drug Administration
Rockville, MD

5325 '01 MAR 21 P1:25

March 10, 2001

Dear Sirs:

I strenuously protest the new rulings on genetically-engineered foods you announced on January 18.

I am very disappointed and disturbed that you are not going to require safety testing or labeling or other consumer protections I hoped for.

Please reconsider and go more cautiously and gradually into this totally new area, with a regard for the basic consumer rights of being informed and being assured of the safety of the food supply.

sincerely,

Christiane Brinkmann PO Box 237, Copake Falls, NY 12517
